Broker Said to Have Decided on Annulment for Wife No. 2.

NEW YORK, April 25 .- A peaceful ending to the turbulent marital trial of Herbert Thornton Andrews was in prospect here today.

The Wall street broker, who persuaded two of his wives to live in the same apartment in Jersey City until civil authorities stepped in and broke up the romance. will return to his wife number one, to live happily ever after, it was said.

WELCOME RECONCILIATION. "I would welcome a reconciliation for my children's sake," Mrs. Maud Andrews, wife No. 1, said. "It is, however, too soon for me to say just what I will do. The first move in that direction must come from Mr. Andrews, and for the present I shall continue my proceedings for divorce." Friends of Andrews said he was

willing to seek peaceful settlement by returning to No. 1. "I shall go back to my wife and forget about the Pittsburgh gifl," they quoted him as saying.

The "Pittsburgh girl" is blonde
Esther Marie Tatnill Andrews who

has dropped out of sight for a few days. She was said to have returned to her mother in Pittsburgh when the case was thrown into the limelight, but word from Pittsburgh is that she has not been there. SUIT MAY BE DROPPED,

She is said to be preparing to ask annualment of her marriage to Andrews, which took place in the State of Connecticut and cannot be considcred bigamy although he was previ-ously married to wife No. 1.

Wife No. 1 is also prosecuting Andrews for bigamy, although it was said she will gladly drop the suit if Andrews returns.

"I am sure that he was not in his right mind when he went to such extremes to humiliate me." she said. It is said the broker within the next few days will sue to annul the certificate of marriage issued to him and the Pittsburgh girl, he having given this promise to Judge T. F. Walsh, in 114; Ogarite, 114; Buxom, 114; Quick, Greenwich, Conn., in whose jurisdiction the license was issued. Upon this action being taken Judge Welsh will not press bigamy charges against the broker, according to the advices

Medical Science proves blood rich in iron to be a secret of great strength, energy and endurance

You may be a better man at 50 than the husky stripling of 25 if you take care of yourself and KEEP YOUR BLOOD FILLED WITH IRON.

In an account of a severe mountain climbing test, a New York newspaper states that 20 per cent of those who accomplished the feat were 44 years and over.

Prize-fighters, wrestlers and athletes have learned the value of plenty of plain coarse foods in their training as such a diet helps supply their blood with iron. THERE ARE 30,000,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

Nature put plenty of iron in the husks of grains and the skin and peels of vegetables and fruits to enrich your blood, but modern methods of cookery throw all these things away—hence the alarming increase in recent years in Anaemia—iron starvation of the blood, with all its attendant ills. When you get up feeling tired in the morning: when you find yourself nervous, irritable and easily upset; when you can no longer do your day's work without being all fagged out at night; when your digestion all goes wrong or you have pains across the back and your face looks pale and drawn, do not wait until you go all to pieces and collapse in a state of nervous prostration, or until in your weakened condition you contract some serious disease, but consult your family physician and have him take a specimen of your blood and make a "blood count" of your red blood corpuscles, or test the iron-power of your blood.

It was a fake, as Lloyd George well knew. Every other thinking person knew it, too. But diseases come even when we know they are diseases. Asked what arrangements had been As soon as the fit was over, the public realized that it had been made for the funeral, Mrs. Oyster buncoed or rather that it had buncoed itself.

Hanging the Kaiser was seen as nothing but an imbecile step toward bringing sympathy to his cause. That Germany could pay the entire cost of the war was seen as a sheer mpossibility.

FRANCE AWAKENS SLOWLY. Time passed and more was seen. It was realized that there was a limit not only to what Germany could pay but also to what amount of reparation would help the countries receiving it. Slowly it came to be understood that in the relation of reparation to home industry and to foreign trade lay problems heretofore expected only by a few. In France the awakening is com-

ing more slowly, and it is held back by peculiar political conditions. France is naturally more frightened than Great Britain, and fear is a shifty basis for constructive politics. Apparently nobody can remain at the head of the government today in either England or France without extraordinary agility.

Labor Department Takes Precautions to Avert Threatened Industrial Disturbances.

By HARRY WARD.

All the machinery of the Depart-ment of Labor will be utilized to prevent a cessation of production through May Day strikes, it was learned today.

"The department is striving to maintain peace in the industrial fields during this period of readjustment," said Hugh Kerwin, chief of the Mediation Bureau of the Department of Labor, today. KEEPING ON ALERT.

Secretary Davis is keeping a close

watch on the labor situation and is prepared to offer the department's services as a mediator in all threaten ed disputes between the workers and the employers. His announced policy is that "an ounce of prevention is better than a pound of cure," in handling labor controversies.
